

A productive first quarter

“My first quarter with Bokamoso has been a really positive and rewarding experience. I’ve been able to build strong relationships with schools and beneficiaries, and it’s encouraging to see learners doing well overall. There are a few challenges, especially with Maths, but with the right support like tutoring, I believe we can improve their outcomes. I’m looking forward to growing the impact even more in the coming months.” — **Nelly**
